PROJECT IDEAS AND ASSUMPTIONS

The main task of the project is to deepen Directive's 89/48/EWG ideas, which will lead to creation of proper European system of comparison, certification and mutual recognition of managerial qualifications in construction. Project based on the successfully finished CLOEMC I - III projects set of 19 already created manuals for Construction Managers' Library.

As a result of the proposed project new postgraduate studies for construction managers will be created forming common platform of managerial knowledge. This base of knowledge will extend the foundations of recognition and certification of managerial qualifications in construction, in EU.

This project has been funded with support from the European Commission within Erasmus+ Programme.
